The overall & Greenfield General Data was collected from: <https://www.mass.gov/info-details/covid-19-response-reporting>

### Some notes

*This Thanksgiving, the Greenfield Health Department is thankful that our community is coming together to make our community COVID safe. Please stay safe this holiday season.*

1. Massachusetts is still currently classified as “Uncontrolled Spread” (covidexitstrategy.org) and is still in the Burgundy zone.
2. The 14-day trend of COVID positivity is **91%** (increasing).
3. Total Positive COVID-19 Cases in Massachusetts: 195,868.
4. The age groups that are still most affected by COVID are: 20-29 and 0-19.
5. Stay Diligent and be Safe: Wear your mask in all public settings **and** wear your mask even if you are 6 feet away from someone else. Lastly, wash your hands.

Plan holiday events now. Keep your family and yourself safe. Consider staying home with people in your close circle “pod” and not travel. If hosting a gathering at your home, try to prepare for an outdoor event. If indoors, keep your windows open for ventilation, wear your mask, wash hands frequently and stay 6’away.

If you need masks please drop by Sanderson Street. The Greenfield Health Department mask program is open. **Thank you** to those who have donated handmade masks for our community!
